Subject: support public space; opposed to resolution 12-143

Aloha Kakou,

I humbly request you oppose resolution 12-143 to retain the 3.4 acre Haleiwa coastal park in the public domain. Land is by far amongst the most precious resources in our state. Please do the right thing and keep this resource in your and our hands as a public treasure for current and future generations to enjoy. As you may know, the north shore community has been turning out in force, with help from citizens all over the island to maintain and beautify this parcel. Enough land is privately owned already. Keep what you have in our hands.

Mahalo Nui Loa,
Marvin Heskett
